

Hahn Asks Guarantees for Park Land Use

A strong policy to guarantee that county-owned parks and recreational areas in newly incorporated cities be preserved for all time for recreational purposes was urged on the Board of Supervisors this week by Supervisor Kenneth Hahn.

Under present policy, the county has been transferring local parks to new cities to operate. "I believe that when the county deeds over a park to a city, the deed should contain a clause guaranteeing that the land will be used forever for recreation purposes or that it will revert

back to the county," Hahn said. "I can understand that some cities might want to use this park land for other purposes such as a civic center, but in the long run they would be better off if they bought other property, rather than reducing the available park land." Supervisor Hahn declared.

He pointed out that good park sites are becoming harder and harder to find and they should be saved for public recreation and enjoyment.
